

# The Sports for Nature Declaration

Our organisation recognises that protecting and restoring nature is critical for ensuring a healthy environment, which athletes and the whole of society need to thrive.

We also understand that to achieve the UN Sustainable Development Goals and support the Post-2020 Global Biodiversity Framework, it is imperative to take action that will deliver transformative change to halt and reverse biodiversity loss by 2030.

Therefore, we commit to undertake ambitious and measurable action for nature by upholding Sports for Nature's four principles to:

- 1) Protect nature and avoid damage to natural habitats and species;
- 2) Restore and regenerate nature wherever possible;
- 3) Understand and reduce risks to nature in our supply chains; and
- 4) Educate and inspire positive action for nature across and beyond sport.

Our organisation also commits to engage actively in the Sports for Nature community. This includes providing an annual progress report on our results, and communicating this work to assist and inspire others to take action for nature.
